

SARVAM

Enviro Solutions Pvt. Ltd.

Integrated Water & Wastewater Management Solutions

*Engineering Sustainable
Water Resources for a
Better Tomorrow*

Water is one of the world's most valuable resources.

At Sarvam Enviro Solutions Pvt. Ltd., we provide end-to-end water resource management, groundwater consulting, wastewater treatment, and advanced water recycling solutions. Our expertise combines scientific assessment, innovative engineering, and sustainable technologies to help industries, institutions, commercial establishments, and government organizations achieve water security and environmental compliance.

Water Resource Management

1. Rooftop/Surface Rainwater Harvesting

- Site Assessment & Feasibility Studies
- System Design & Engineering
- Installation & Commissioning
- Operation & Maintenance
- Performance Monitoring

2. Surface Water Management

- Check Dams
- Percolation Tanks
- Farm Ponds
- Water Budgeting
- Recharge Trenches
- Recharge Wells
- Water Storage Structures
- Water security plan

3. Water Demand Analysis & Management

Optimizing water consumption through scientific assessment and efficient management practices.

Services Include

- Water Utilization Audits
- Water Balance Studies
- Water Usage Pattern Analysis
- Water Loss Assessment
- Water Conservation Planning
- Water Quality Analysis
- Awareness & Capacity Building Programs
- Industrial Water Efficiency Programs

4. Groundwater Management

Scientific groundwater investigations for sustainable resource development.

Services Include

- Geological Mapping
- Hydrogeological Investigations
- Aquifer Mapping
- Groundwater Exploration
- Aquifer Pumping Tests
- Artificial Recharge Planning
- Groundwater Resource Assessment
- CGWA Compliance Support
- Geophysical Survey

Groundwater Digital Solutions

Smart Monitoring & Product Development

Innovative digital solutions for real-time groundwater monitoring and decision support.

Products & Solutions

- IoT-Based Groundwater Monitoring Systems
- Telemetry Water meter
- Real-Time Monitoring Dashboard
- Cloud-Based Data Management
- Automated Alert Systems
- Remote Monitoring Solutions

Sustainable Water Management

Industrial & Municipal Water Treatment Solutions

Design, Engineering, Supply, Installation, Commissioning, Operation & Maintenance of complete water and wastewater treatment systems.

1. Effluent Treatment Plants (ETP)

Customized treatment systems for industrial wastewater.

Technologies

- Physical Treatment
- Chemical Treatment
- Physico-Chemical Treatment
- Biological Treatment
- Advanced Oxidation Processes (AOP)
- Electrocoagulation (EC)
- Dissolved Air Flotation (DAF)

2. Sewage Treatment Plants (STP)

Efficient wastewater treatment for commercial, residential, and industrial applications.

Technologies

- MBBR (Moving Bed Biofilm Reactor)
- MBR (Membrane Bioreactor)
- SBR (Sequential Batch Reactor)
- ASP (Activated Sludge Process)
- FAB (Fluidized Aerobic Bed)
- RBC (Rotating Biological Contactor)
- Eco STP / Nature-Based Treatment Systems

3. Zero Liquid Discharge (ZLD)

Complete wastewater recovery and reuse solutions.

Technologies

- Multiple Effect Evaporator (MEE)
- Mechanical Vapour Recompression (MVR)
- Agitated Thin Film Dryer (ATFD)
- Crystallizers

4. Advanced Water Treatment & Recycling

High-purity water systems for industrial and process applications.

Technologies

- Reverse Osmosis (RO)
- Ultra Filtration (UF)
- Activated Carbon Filtration (ACF)
- Pressure Sand Filters (PSF)
- Softening Plants
- Demineralization (DM) Plants
- UV Disinfection
- Ozonation Systems
- Chlorination Systems

Why Choose Sarvam Enviro Solutions?

- 35+ Years of cumulative industry experience.
- Our team has successfully contributed to 70+ water sector projects, including 30+ Rainwater Harvesting and 42+ ETP, STP & ZLD projects across Maharashtra.
- Complete Water Management Solutions under one roof.
- Experienced Multidisciplinary Team
- with strategic industry partnerships.
- Customized, Sustainable & Cost-Effective engineering solutions.
- Advanced Treatment Technologies & IoT-Based Monitoring.
- Turnkey EPC, O&M & Regulatory Compliance support.
- Committed to Water Sustainability & Innovation.

Our Commitment

"Every Drop Counts. Every Solution Matters."

Sarvam Enviro Solutions Pvt. Ltd. is committed to delivering innovative, sustainable, and technology-driven water management solutions that ensure water security, environmental protection, and long-term value for our clients.
